

Why you should join OFCA

-Our workprogramme is designed to promote, safeguard and represent common and general interests of the members.

-Our goal is to improve the understanding of all matters associated with the use of cellulose based additives among the public and more particularly the users of these products.

-Forum for informally meetings to discuss mutual interests, such as product-stewardship and –liability, legal affairs, sector activities. These meetings are well organized and in compliance with the EU law.

-Early-stage information on legislation developments in the EU regarding food additives.

-To liase co-operation in the European additives industry between its members and European and other international authorities like EFSA and WHO/FAO Jecfa.

-Access to the OFCA data base on the internetsite.

-Updates about modifications of the monographs in the European Pharmacopoeia.

-OFCA can assist your company in contacting various organizations like EU Commission, Codex Committee and National Authorities.
